SUMMARY

Information Technology undergraduate with hands-on experience in Java, Python, SQL, Data Analytics, and Front-End Web Development. Skilled in data cleaning, visualization, dashboard creation, and problem-solving using Python, Pandas, and . Strong understanding of Data Structures, OOP, DBMS, and Operating Systems. Seeking Software Development or Data Analytics opportunities to apply technical and analytical skills in solving real-world business problems.

TECHNICAL SKILLS

Languages: Python, Java, SQL, JavaScript
Analytics: Microsoft Excel, Pandas, NumPy, Matplotlib
Web & Backend: HTML5, CSS3, JavaScript
Databases & Tools: MySQL, VS Code, GitHub, Jupyter Notebook
CS Concepts: DSA, OOP, DBMS, OS

PROJECTS

Sales Analysis Dashboard using Python, Pandas, Matplotlib

- Analyzed sales dataset containing 10,000+ records using Python and Pandas.
- data cleaning, preprocessing, duplicate removal, and missing value handling.
- Performed region-wise and category-wise analysis to identify key sales trends and business insights.
- Generated business insights to identify high-performing products and regions.

Stock Analysis Web Application using HTML, CSS, JavaScript, Financial API

- Designed and developed a fully responsive stock market tracking application with real-time data integration via external financial REST APIs.
- Implemented interactive trend analysis charts and graphical visualizations to help users identify market patterns and derive investment insights.
- Optimized client-side rendering performance and applied clean UI/UX principles for a fast, intuitive, and accessible experience across all devices.
- Engineered modular JavaScript components to ensure maintainability and scalability for future feature additions.

EDUCATION

Bengal Institute of Technology, Kolkata, Bengal
B.Tech in Information Technology

Expected July 2027

Vivekananda Central School
X: Matriculation

April 2020

DAV Public School
XII: PCM

April 2022

CERTIFICATIONS

Python Full Stack Developer — Virtual Internship (AICTE Certified)

- Completed internship covering Python programming, backend development, and deployment.
Smart India Hackathon – Image-Based Breed Recognition for Indian Cattle Buffaloes
- Proposed an image-based breed recognition system for accurate identification and classification of Indian cattle and Buffalo Breeds

POSITION OF RESPONSIBILITY

GDGOC BIT, Kolkata, West bengal
Marketing Associate

2024-2025

- Developed marketing strategies to promote community-driven craft products, increasing visibility and engagement.
